CAREER OBJECTIVE

I am a Computer Science Engineering student passionate about full stack web development. I enjoy creating interactive web apps and exploring AI concepts. Eager to apply my skills and gain practical experience through an internship that challenges and inspires growth.

EDUCATION

M.Tech, Computer Science & Engineering 2023 - 2028
VIT AP CAMPUS

CGPA: 8.75/10

Senior Secondary (XII), Board Of Intermediate Education Andhra Pradesh 2023
GITAM Institution

Percentage: 88.50%

Secondary (X), Board Of Secondary Education Andhra Pradesh 2021
Narayana Olympiad School

Percentage: 98.00%

TRAININGS / CERTIFICATIONS

Web Application Development
Feb 2025 - Present
udemy, Virtual

Git And Github
Jul 2024
SIMPLILEARN, Virtual

Python Basic
Jul 2024
Great Learning, Virtual

PROJECTS

APBusConnect ↗
Jun 2026
APBusConnect is a GTFS-based transit journey planner built for APSRTC routes across Andhra Pradesh. It identifies direct and connecting bus journeys when direct services are unavailable, recommends optimal transfer points, and helps passengers discover feasible travel options. Developed using HTML, CSS, JavaScript, and deployed on a custom domain using Vercel.

CGPA CALCULATOR ↗
Jun 2025
Built a web-based tool to help VIT students calculate CGPA (including predictions based on expected grades) and track attendance for bunk planning. Created using HTML, CSS, and JavaScript. Hosted on GitHub Pages with utteranc.es for user feedback.

way go ↗

Jul 2026 - Present

WayGo – Smart Travel & Ride-Sharing Platform
Developed WayGo, a smart ride-sharing and travel platform designed to connect users with convenient, affordable, and reliable transportation options. Built the application using React.js, Vite, Node.js, Express.js, and MongoDB, implementing secure authentication, ride creation and booking, user profiles, real-time communication, notifications, and driver verification. Designed RESTful APIs and integrated cloud-based services for efficient data and media management. Implemented responsive and user-friendly interfaces to provide a seamless experience across devices. Focused on scalability, security, and performance while developing a complete full-stack solution that simplifies travel coordination and reduces transportation costs.

SKILLS

- JavaScript
- Tailwind CSS
- GitHub
- Amazon EC2
- Cloud Computing
- React
- Canva
- Node.js
- Jenkins
- CI/CD
- Express.js
- Data Structures
- MongoDB
- Docker

EXTRA CURRICULAR ACTIVITIES

- Exploring new technologies
- Served as Hostel Committee President (2025–26), demonstrating leadership, teamwork, and management skills by coordinating hostel activities, ensuring timely submissions, and handling responsibilities efficiently. The role strengthened my hard work, communication, problem-solving, and team management abilities in a collaborative environment.
- Apart from academics, I actively engage in extracurricular activities such as kabaddi and badminton, which enhance my teamwork and focus. I regularly go to the gym to maintain fitness and discipline. I also have a strong interest in creative designing and visual aesthetics.

ADDITIONAL DETAILS

- Passionate about solving real-world problems through innovative technology and practical solutions.
- Experienced in building practical applications
